

Hearts.of.Iron.IV.Update.v1.4.0..to..v1. 4.1 Hearts of Iron IV is one of the best games on the market for civ-builders. It's realistic, has tons of options, and really teaches you about how to run an empire. So when they release an update that makes it even better, you know you should pay attention. This is that update! What's new? A whole lot! First off, there are now four alternate victory conditions: military conquest, industrial supremacy, diplomatic victory (end game), and score (purist mode). Second, if you have a great war chest but your economy is at shambles... well now you can spend some cash to boost it back up again! Thirdly... this is a big one. You can now turn your empire into a naval superpower! There are new quests involving the dreaded Royal Australian Navy and battles in the Atlantic Ocean, but they're worth it to be part of Australia's unique naval tradition. Overall though, this update is about bringing all of the parts of Hearts.of.Iron.IV together to make it a more complete experience. There's a whole lot going on here... you will feel overwhelmed at times, but stick with it and you'll be rewarded for your dedication! Hearts of Iron IV Key Features: In between these features, there are also many other changes that build upon the core gameplay mechanics from HoI3 and HoI4. However, one major thing to note is that the Naval Doctrine system has been completely reworked. It is now based on Carriers rather than Battleships which means that many older naval designs are not viable anymore.

The game received "generally favorable reviews" according to the review aggregation website Metacritic. The game was nominated for "Best PC Game of 2016" at The Independent Game Developers' Association Awards, and for "Strategy/Simulation Game of the Year" at the 21st Annual D.I.C.E. Awards, losing both awards to "Darkest Dungeon". By January 2017, total sales had surpassed 500,000 copies. "Hearts of Iron IV" was nominated for "Best Strategy Game" at The Independent Game Developers' Association Awards, and also for "Game of the Year", losing both awards to "Darkest Dungeon". The game won the Strategy Gamer's Choice award in January 2018.
