We all understand that life can get hectic and crazy, but if you're not careful, your home can end up like a storage room. With the help of these 5 cheap and easy cleaning tips, we will show you how to clear clutter and move towards a cleaner home. 1) Get it Outside: The easiest way to avoid clutter is to get rid of anything that doesn't belong inside your home in the first place - like the old clothes piling up in the hallway closet or an overgrown potted plant blocking your front door's view. 2) Start the Cycle: To avoid clutter, start the cycle by putting away your cleaning supplies before you go to bed. This is a lazy way of getting anything off your mind. 3) Walk 'n' Sweep: When you walk past any unwanted items, make sure they are out of sight before you move on to something else. This will not only help lower your clutter level but also help prevent any accidental damage to your home. A broom, dustpan and dust cloth is an effective tool that can be used for this purpose. 4) Get Organized: Storing away clutter is one of the best ways of eliminating them from your life altogether. Keep important items in one place and use less storage space to avoid any unnecessary clutter. Use hooks, cabinets and shelves to keep things organized. 5) Get Rid of Odors: If you want to get rid of any unwanted bad odors, you can try sprinkling some baking soda on the carpet or using vinegar water to remove stains on your wooden furniture. Use lemon peels around the house for a fresh aroma too.
